

OEL 16-65

11 January 1965

**MEMORANDUM FOR : Deputy Assistant Director for Intercept
Operations/OEL**

SUBJECT : Planning for [REDACTED] Exploitation

25X1A

25X1A

25X1A 1. Your memorandum of 23 December on planning for [REDACTED] exploitation included an unsolicited proposal from [REDACTED]. This proposal has been reviewed by GSD and myself. Although a number of things which the proposal advocates investigating would appear to be infeasible in practice, the main objectives can probably be realized. Before proceeding further with the technical evaluation, however, it was believed that an evaluation of the operational difficulties involved particularly the probabilities of shut-down of signals for which intercept is desired should be considered.

2. No further action by S&D is contemplated at this time unless you so request.
